

Internship Positions Available

Granada Farms is currently seeking individuals for a paid internship as a weekend foaling technician for the 2027 foaling season. The internship is from January through May. Applications will be accepted through October 31st.

Granada Farms is an equine breeding facility involved in the quarter horse racing industry; however we do also work with several other breeds. We typically foal out around 150 mares per season. The foaling technician's primary responsibility will be monitoring and assisting the foaling of mares requiring overnight shifts. Other duties could include cleaning and prep for the following day as well as administering evening treatments. Typical overnight shift is from 7:00pm to 7:00am. We are looking for someone to work Friday & Saturday night. You must have your own transportation.

Previous experience preferred but not required; as the application, please submit a resume and cover letter telling us a little bit about yourself and why you are interested in the foaling internship.

Applications may be e-mailed to **Angie@granadafarms.com**
